

## **Cover Letter – Diagnostics Area**

HP is pleased to introduce a new organizational structure for the Diagnostics and Monitoring Tools Area. Please note the following improvements.

- Addition of a new Diagnostics Overview Guide to all diagnostic tools.
- Consolidation of many documents into two comprehensive Administrator's and User's Guides for:
  - Offline Diagnostics
  - OnlineDiag (includes EMS and STM)
- Consolidation of information for all Offline Diagnostics tools into one area under the heading Offline Diagnostics.
- Consolidation of information for all Online Diagnostics tools into one area under the heading Online Diagnostics. Subtopics under Online Diagnostics are:
  - SysFaultMgmt – System Fault Management (SFM)
  - OnlineDiag - EMS Hardware Monitors and Support Tools Manager (STM)
  - Event Information Tools
  - Online Diagnostics for MPE/ix Systems

This new structure will:

- Facilitate locating the information you need to find quickly
- Facilitate maintenance of the documentation set
