HP Output Distributor 2.0

# ***Technical Update No. 1***

---

---

This technical update includes important information about HP Output Distributor 2.0 (formerly known as HP Dazel Output Distributor) and HP Output Distributor Administrator. Following is a summary of this information:

- Hewlett-Packard certifies that HP Output Distributor 2.0 at service pack level 02.3 functions on IBM UNIX hosts running the AIX 5.1 operating system.

---

NOTE: For HP Output Distributor 2.0 at service pack level 02.3 to function properly with supported AIX operating systems, **you must be running the supported AIX operating system with `dce.pthreads.rte` version 2.1.0.0**. The DCE pthreads runtime library included with AIX 5.1 is not compatible with HP Output Server (formerly known as HP Dazel Output Server) libraries that support HP Output Distributor 2.0.

---

For a complete list of supported operating systems for HP Output Distributor 2.0 at service pack level 02.3, refer to “Supported operating systems” on page 2. For information about installing Service Pack 02.3 for HP Output Distributor 2.0, refer to the release notes for Service Pack 02.3 for HP Output Distributor 2.0.

- HP Output Distributor Administrator does not function properly on the Windows XP operating system. HP does not support HP Output Distributor Administrator when it is installed on the Windows XP operating system.

For a complete list of supported operating systems for HP Output Distributor Administrator, refer to “Supported operating systems.”

## Supported operating systems

This section identifies the supported operating systems and the respective operating system patches, if any, for HP Output Distributor 2.0 and HP Output Distributor Administrator.

### ***HP Output Distributor 2.0***

The following table identifies the supported operating systems and the respective operating system patches, if any, for HP Output Distributor 2.0 at service pack level 02.3.

**Table 1. Operating systems and system patches**

<b>OS Version</b>	<b>Required Patch(es)</b>
AIX 4.2.1 on RS/6000	dce.pthreads.rte version 2.1.0.0 bos.rte.libpthreads and bos.rte.libc must be set at compatible levels
AIX 4.3.2 and 4.3.3 on RS/6000	dce.pthreads.rte version 2.1.0.0 Maintenance Release 9
AIX 5.1 on RS/6000	dce.pthreads.rte version 2.1.0.0 Maintenance Release 3  NOTE: The DCE pthreads runtime library included with AIX 5.1 is not compatible with HP Output Server libraries that support HP Output Distributor 2.0.

**Table 1. Operating systems and system patches (continued)**

OS Version	Required Patch(es)
HP/UX 10.20	February 1999 (XR43) Extension Software Patch Bundle PHSS_19739, the DCE 1.5 cumulative patch (this patch supersedes PHSS_16429) PHSS_20608 (required to fix a problem introduced by PHSS_19739)
HP/UX 11.0 (32- and 64-bit)	September 2001 Quality Pack
HP/UX 11i	September 2001 Quality Pack
Microsoft Windows NT 4.0	Service Pack 6a
Microsoft Windows 2000 (Server/Advanced Server)	Service Pack 2
Solaris 2.6	February 1999 Solaris Recommended and Security Patch Cluster patch 105181-21
Solaris 2.7	patches 107709-01 and 107443-06
Solaris 2.8	November 2001 Recommended Patch Bundle 108827-20, 108528-14, 108987-09, 111111-03, 112396-02, 111297-01

## **HP Output Distributor Administrator**

The following table identifies the supported operating systems and the respective operating system patches, if any, that are required for HP Output Distributor Administrator.

---

NOTE: HP Output Distributor Administrator does not function properly on the Windows XP operating system. HP does not support HP Output Distributor Administrator when it is installed on the Windows XP operating system.

---

**Table 2. Operating systems and system patches**

<b>OS Version</b>	<b>Required Patch(es)</b>
Microsoft Windows NT	Service Pack 6a
Microsoft Windows 2000 (Professional, Server, and Advanced Server)	Service Pack 2
